

NEET 2020

655/720

(LTMC Mumbai)

GAURAVI BABARIYA

Hello friends, My name is Gauravi P. Babariya. I joined JISA in 2018. It has been a pleasure spending my two years here which has been a major contribution in my success. Joining JISA turned out to be a life-changing decision for me. I had to go through a lot of ups and down in 2-yr. There were times when I felt depressed about my results but the entire team was there to help me. One-to-one counselling sessions, detailed analysis of test results, helped me find out where exactly I went wrong and to repair my mistakes.

The entire syllabus was covered in November which gave me ample time to complete multiple revisions before the exam. RTS, WTS, BRIS and model tests are more than enough to make u practise and familiarize you to the exam environment.

The faculty was there to help us even in tough Covid times. I being a hosteller never felt out of home because festivals like Dusshera, Shivjayanti were all celebrated. The teachers day celebrations, farewell all have become great memories to cherish for life.

I thank the entire team because I couldn't have found a better place than JISA to fulfill my dreams.

NEET 2020

641/720

(GMC Mumbai)

SANSKRUTI SAYAMBER

I am Sanskruti Sayamber, past student of JJ Science Academy, currently studying in Grant Govt. Medical College, Mumbai. Here, I want to share my experience in JJSA. Firstly, I want to thank JJSA and all faculties there as it is because of them I can achieve my goal to get into such a prestigious college.

As a student of JJSA, I must say the teaching-learning process is here is really unique one. Topics are not just taught for the sake of syllabus completion but they are taught so that student should get thorough with it. All the concepts are made crystal clear and the focus is on understanding not just rote learning. Syllabus of all three subjects Physics, Chemistry and Biology is covered with thorough understanding and also adequate practice of MCQs and numericals is taken by teachers. Syllabus is covered of all three subjects is covered beforehand to provide students adequate time to have number of revisions and for solving more MCQs in the form of revision tests.

As it is rightly said, "Practice makes man perfect", with the same view JJSA conducts maximum number of tests so as to ^{1st} acquainted with NEET MCQ pattern, MCQ solving method, to learn time management and to eliminate "exam fear" from students' minds. There are many topic wise tests, BMT's (Bimonthly test) and revision tests to get a practice of all sorts of MCQs and to have a much stronger approach for every topic. An elaborate report and result of every test was given which made us understand our mistakes and shortcomings. These testings helped me a lot to introspect myself and to rectify my mistakes and most importantly to find out what are my weak points.

After syllabus completion, the revision lectures and doubt solving sessions were like cherry on the cake. They helped us to get perfection in all topics and concepts and also to revise all syllabus number of times, that it gets ingrained in our brains.

The teaching pattern of all faculties here is really awesome. They not only teach us the subject but teach to love the subject. Their way of teaching is so student friendly that students find it very easy and interesting to learn from them. All the faculties are always approachable and they are always ready to help students. They inspired us to rise up from a downfall and start working again. Their motivational words helped us to keep studying and be determined to work harder to achieve our goals. I think their motivation was one of the most important driving force for me to study for NEET. I am so fortunate to learn from such great teachers like Yogesh Sir, Jha Sir, Vinay Sir, Abhishek Sir, Mahesh Sir, Sudhir Sir and Harshad Sir.

lastly, I would like to add a note for my experience during lockdown period. The lockdown and Corona period was really depressing and stressful for all of us because postponement of exam and all uncertainty due to those conditions. But JJSA and all faculties supported us and kept us motivated through the hard time. They continued the revision lectures and tests till the exam and didn't let us lose our hopes.

last but not the least, I am really grateful to JJSA as they have a lion's share in my success and it was because of them I could achieve my goal.

NEET 2020

641/720

(GMC KOLHAPUR)

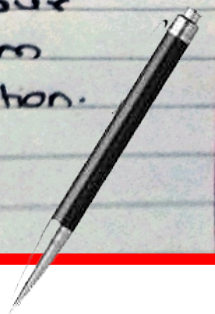

MANGESH SATAM

The Content given by JISA is totally enhance Oriented. The Syllabus is done at moderate pace and enough time is given for each topic. Enough problem based practice is done for Subjects like Physics and Chemistry. The teaching of Biology is totally NCERT oriented which is the basic pre-requisite for the Exam. The Specific case or Special type of problems in classwork are very useful. Some directly derived results help us to save a lot of time on exam day. Multiple assignment and Mod of each Subjects helps us to study the chapter topic wise, clearly and to depth. The one-word, Image based sheet, Numerical sheet provided in Biology is sufficient to master the topics.

The 3hr test of BMT, RTs, PTs and specially MTs help us to know level of preparation we are at. The reports of these tests are obtained very early. The report sheet has our response and right answer also. After lecture, if we have doubt in a topic or test, we can solve them with our faculties that are easily available. The faculties are very student friendly and are always keen to solve doubts, do cross-questioning that helps to build Concept. The topic-wise revision done by our faculties during pandemic helped a lot to boost the score.

Apart from academics, faculties can also solve any your personal problems. They can lift your spirits up whenever you are demotivated. I am very lucky that I was student of JISA institution.

- Mangesh Satam

NEET 2021

KARTIK TAMBE

I have been a part of JTSA for only about a year now, but this coaching has provided me with appropriate practice and guidance for my NEET preparation. I am thankful to all my teachers and JTSA faculty who have always provided me with a helping hand with all my problems. The completion ~~to~~ and practice of each and every topic from all my subjects were pretty thorough. The daily tests provided me with a very good amount of practice and ~~helped~~ helped me know my weak areas while the monthly & the mock tests of varying difficulty helped me to ramp up my performance step by step. At Last, I would love to especially thank Yogesh sir for his guidance and for helping me out with my queries regarding my NEET preparation.

NEET 2021

602/720

YUGANDHAR MULAY

It was a great experience studying at JJSA, a memory to cherish for lifetime. I am a student of batch 2019-2021. JJSA has provided me great guidance and support to crack my NEET exam. They cover all the required syllabus for NEET that to quite early which helps us spare time for our self study and board exams. Personally for me daily tests were a great help cause for tests I used to study the same topic again and again and used to go through my weak topics on a regular basis. In my case my entire 12th was on online basis, still because of our website I was able to give the tests and could solve my doubts very easily. One more thing that helped me were multiple revision sessions taken by our teachers. Due to early syllabus completion and delayed exam we had a lot of time to revise and so we had multiple doubts, but teachers always had our back and solved all our doubts. Peer Teachers were always accessible to us and never failed to help us out. Due to covid situation and uncertainty in exam we used to get demotivated but just one call with any of my teachers used to rejuvenate me and increase my moral. For me it has been a great journey at JJSA and I am really thankful to all my teachers and staff for helping me crack NEET and achieve my dream.

Thanking you,

Yugandhar Mulay

NEET 2021

588/720

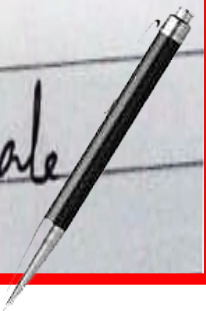

ISHA PITAMBARWALE

My Journey with TJSA has been for a year and it was an amazing experience. Although the classes were online, the teachers managed so well to make us understand each and every point in detail.

The syllabus was completed on time which gave me enough time to revise and learn.

Tests were taken daily and it gave me enough confidence and reduced ~~at~~ my stress during the main exam. The teachers were supportive, personally guided me and motivated me. No matter what the time was, they answered all my doubts patiently. It all made easy for me to crack NEET.

- Isha Pitambarwale

NEET 2021

563/720

ABHISHEK ROY

Hello everyone, I am Abhishek Roy from jjsa 2020-21 batch. There are many memories which I would like to share. We had a great trip to waterpark where we had a great time & enjoyed a lot. Speaking about academic all the facilities are very good in their subjects. Even in the lockdown they had covered whole syllabus before time. We had regular test on all chapters which cover ncert as well as extra information. The thing which matter is you should not miss any test & most important all the BMT because sitting in exam hall for 3 hrs & scoring in that timing is really very difficult if you will miss this opportunity now then that can create a mess later.

Yogesh sir had revised whole physics (the big fear for every neet aspirants) portion many times & had arranged various doubt solving lectures. I personally love physics a lot because there can't be any interesting subject than physics where you only have to understand the concept & that's all, no need to solve the bunch of book which everyone do & I don't know why they do that. Yogesh sir had always

told us to only understand the concept checklist & strictly revise it.

Every faculty had revised their subject & cleared all doubts.

Frankly speaking their test series are difficult but if you will make proper concept checklist then scoring good mark is not hard. Because in neet it's very important to understand the concept rather than mugging it.

My suggestion to all neet aspirants is please listen to all the facilities faculties & follow them blindly & you will clear neet with excellent scores.

I had learnt many things in this 2 yrs time span apart from study which will help me in my future.

ALL THE BEST TO ALL NEET ASPIRANTS

NEET 2021

NEET 2021
559/720

ANUJ TAPARE

It was an amazing experience studying at JJ Science Academy. It is one of the best academies one could ever find for preparations of entrance exams. Teaching style of teachers and practical examples they give makes it easy to understand topics well. All teachers are very helpful and always motivates us for studying. Test pattern and number of tests they conduct and class notes were really helpful for me. Syllabus is completed leaving enough time for revision and solving doubts of every student. I will always be grateful for studying at such great place.

(AIIMS NAGPUR)

PRATAP MAGAR

It was a great experience to be a proud student of JJ science academy. Each and every faculty was very helpful and co-operative. Even the non-teaching staff was helpful in managing all the lectures and doubt sessions. One thing that I liked the most in JJ Science academy was the student-teacher interaction. Every faculty made sure that they have good interaction with the student so that all our doubts and difficult topics were cleared.

Feedback by **Dr Magar**

Excellent performance by the students this year.. Kudos to all the teachers at JJSA. All the teachers, specially Jha sir and Jahagirdar sir gave personal attention to all the students. Even the non-teaching staff is very helpful and cooperative. Once again thanks to JJSA for taking care of the kids and giving them confidence to perform well.

(VMMC Solapur)

YASHASHRI ANDHALE

- Biology is best
Genetics was best taught by Jha sir. Everything
get cleared in the class only.
- Organic is best only because of AK sir.
- Physical chem is best because of Sudhir sir.
- And Physics is the best.
- Every faculty is giving their best to make
us successful.
- Testing is the best.
And no class do the testing like JJ.
- Solve the papers again & again.
All the best.

NEET 2022

580/720

(GMC Kolhapur)

SAKSHI KARALE

All faculties of JSSA are very helpful. Our all doubts were solved by them. Testing is the best. especially physics RRT, PTs were best part. All concepts were cleared from them.

Ques- The best teacher for organic chem is AK sir. Physical chem is was also good.
